Jon Parry Wonders if Communists Enjoy Fallout

To The Mirror:

You've probably heard the old adage, "cutting off his nose to spite his face." If the atmospheric atomic bomb testing by the Russians does not apply to this saying, then I'm dumber than the Russkys think the CIA is.

What about the immediate fallout that falls on Russia and other Red satellites including Red China, due to the tricky air currents in the upper atmosphere and the nearness of the test locations? The answer may be, "life is cheaper under Communism."

JON PARRY.
